# BOOST<sup>®</sup> your cleaning performance

The Clarke<sup>®</sup> CA60 series of Autoscrubbers takes cleaning performance to a whole new level. The CA60 features BOOST<sup>®</sup> technology that applies up to 110 pounds of down pressure for one pass cleaning and the ability to remove floor finish to greater depths than ever before. Productivity is greatly enhanced with the 24-inch BOOST head and large 16-gallon tanks for long range cleaning and fewer dump and refills. The BOOST deck can now be raised and lowered with the simple touch of a button, simplifying machine operation and minimizing training.

We have also expanded the product line-up, offering a more affordable 20-inch disc pad assist machine and a 24-inch BOOST<sup>®</sup> machine to increase productivity.

**Durability:** Built Clarke tough

**Lower Cost of Ownership:** VacSaver float cage, Chemical Mixing System (optional), debris catch cage, onboard charger and isolator warranty

**BOOST<sup>®</sup> Deck Leveling System:** Ensures uniform pad pressure front to back for even cleaning

**Simplicity:** Easy to use, easy to train, easy to maintain

**Warranty:** Isolators covered under warranty

Control panel with intuitive display for ease of operation

Fully accessible recovery tank with debris catch cage allows for simple cleanup

BOOST<sup>®</sup> Orbital technology cleans with multi directional scrubbing action while using less water and fewer chemicals

**BOOST<sup>®</sup>**

## Technical specifications
