## OPTIONS AND ACCESSORIES

### ECOSTRIP

Ecostrip 400 pads are coated with a specially formulated diamond abrasive that can remove layers of floor finish without stripping chemicals.

Ecostrip Buff pads have a fine 8500 grit diamond coating that brings back the shine after scrubbing. Perfect for high traffic areas and restoration work.

Add a 3.5 gallon solution tank to your floor machine. The solution tank easily mounts on the handle. A hand operated valve controls solution flow and a tube delivers solution directly to a port in the skirt.
