Kaivac, Inc. has multiple patents and patents pending on its
No-Touch Cleaning® equipment and methods.

Kaivac No-Touch Cleaning®

Don't Just Clean It. Kaivac It.

Manufacturer PDF Provided by www.southeasternequipment.net

Why Choose Kaivac No-Touch Cleaning® For Restrooms Over Traditional Cleaning Tools?

Solve the #1 building maintenance complaint and health hazard — dirty, smelly, unsanitary restrooms

- Hygienically remove soil, germs, urine and other indoor pollutants that traditional cleaning tools like mops and wipes leave behind
- Eliminate cross-contamination and redistribution of germs
- Stop the spread of disease-causing organisms throughout the building

Make your restroom cleaning easier, faster, and more cost effective

- Remove the stigma of restroom cleaning. Empower workers to clean without touching contaminated surfaces, or crawling on their hands and knees
- Clean in one-third the time of conventional cleaning methods — reducing labor costs and restroom closure time
- Improve equipment cost efficiencies with a multipurpose system vs. multiple single purpose tools
- Control chemical cost with lower usage and less waste with automatic proportioning

In Summary:

Kaivac No-Touch Cleaning® produces overall better results with less cost — in less time!

FACTOID: Restrooms are a business's most expensive construction and cleaning cost.

Fast: 1/3rd The Time

No-Touch Cleaning® dramatically increases productivity compared to conventional cleaning methods. According to ISSA, it takes an average of three minutes to clean a restroom fixture. In many restrooms No-Touch Cleaning® cuts that time to one minute, leaving surfaces sparkling clean in one-third the time.

Effective: 60X More!

A recent scientific study compared the cleaning effectiveness of flat mops with the Kaivac No-Touch Cleaning® process, measuring bacteria removal in grout lines. The results showed that No-Touch Cleaning® was 60 times more efficient in removing bacteria from grout lines than mopping, which is more likely to spread contamination than remove it.

Easy: 3 Simple Steps

Workers begin by simply spraying cleaning solution on fixtures and floors.

Next, they blast the soils to the floor with a high-pressure fresh water spray.

Then the wet floor is vacuumed dry, completely removing soils, bacteria and other bio-hazardous contaminants.

ROI: An Excellent Investment

- Increase productivity with faster cleaning methods and tool efficiency.
- Reduce chemical cost and eliminate waste with efficient chemical metering.
- Replace many single-purpose tools and machines to do more with a lower capital equipment investment.
- Improve safety for workers and customers.

FACTOID: In tests conducted by an independent NELAP-accredited laboratory, Kaivac's systems removed more than 99.9% of targeted bacteria when used with plain tap water only.

Kaivac No-Touch Cleaning® Goes Beyond the Restroom

Kaivac's multipurpose No-Touch Cleaning® systems are built to tackle just about any surface and space in any facility type.

- Perform wet or dry cleaning on virtually any surface throughout the building
- Deep clean any hard surface
- Clean carpets with the addition of a CRI (Carpet and Rug Institute) Silver Rated Carpet Extractor
- Spot clean upholstered surfaces such as furniture and automobile interiors with the Upholstery Tool
- Extract soil and revive entrance mats with the Carpet Extraction Brush Head
- Remove standing water quickly and easily with the Instant Drain to keep your facility safe
- Carry supplies and remove trash with on-board carriers

FACTOID: Suited for all areas of your facility regardless of industry, including:

- Education
- Food Service
- Healthcare
- Industrial
- Transportation
- Corrections
- Pet Care
- Parks & Rec
- Stadiums
- Kitchens
- Hallways
- Stairwells
- Locker rooms
- Entryways
- Kennels
- Restrooms and more

Clean carpet with the CRI Silver Rated Carpet Extractor

Hard surface vacuuming

KaiGrouter deep cleans grout lines

Vacuum-powered Trash Compactor reduces trash volume by half or more

Quickly spot clean upholstered surfaces

Spray, brush and squeegee for a squeaky clean floor

Conveniently clean stairwells

Flexible Power Options: No-Touch Cleaning® Unplugged

Kaivac offers a Quick-Change Lithium-ion Power Pack option for two of its No-Touch Cleaning® models — the KaiVac® 1750 and KaiVac® 2750. Now, cleaners can move freely and quickly throughout the facility at any time of the day with virtually no boundaries — or

concerns for power outlets and trip hazards. This go-anywhere capability improves worker productivity while eliminating the hassle of cord management. Plus, the Power Pack allows you to quickly change and share batteries across all Kaivac battery-enabled systems.

- Cord-free operation is perfect for day cleaning and other trip-sensitive cleaning processes
- Move quickly and nimbly through tight spaces and obstacles without the hindrance of cord management
- Smart Lithium-ion technology maximizes cycle time, extends battery life, and incorporates overcharge protection, automatic shutdown and other advanced features for care-free operation and long life — with little to no maintenance
- Can be “opportunity charged” at any point in the discharge cycle without damaging cells
- Provides consistent performance from beginning to end of the charge cycle
- Universal Power Pack allows you to share batteries across all Kaivac battery-enabled systems

Ergonomics & Safety: Designed To Be Worker Friendly

- Protects worker from exposure to contaminated surfaces and chemicals
- Worker operates in an upright position — no stooping or crawling on hands and knees
- Easy grip design spray gun and wand
- Balanced design combined with robust wheels and casters provide maximum stability and maneuverability
- Easy-to-drain recovery tank — no lifting
- Built to move easily up and down stairs, into a vehicle, or over rough terrain
- Size, capacity and hose length are designed to fit each machine to various cleaning situations
- Easy to learn and easy to use
- Tangle-free operation

Certified by the National Floor Safety Institute (NFSI) for providing high traction.

FACTOID: We're committed to the science of cleaning. All Kaivac products undergo stringent scientific testing during development to ensure the greatest cleaning results.

Kaivac No-Touch Cleaning® — Smart Cleaning Machines

We make learning easy too with our On-demand, On-the-Job “Personal Trainer” — KaiTutor™

Training is a critical component of any quality cleaning program, especially in an industry overwhelmed by high turnover and unskilled workers. KaiTutor, an on-board training and documentation system, solves the training dilemma. With KaiTutor, users can learn quickly and at their own pace — anytime, anywhere.

Rapid Repair Feature
All No-Touch Cleaning® systems are designed with Kaivac’s unique removable “black box” engine compartment which enables rapid repair and exchange to minimize downtime and cost.

FACTOID: Used consistently, No-Touch Cleaning® systems leave restrooms smelling fresh by removing urine, a primary source of odor, as well as bacteria and other contaminants.

Optional Quick-Change Power Pack

Aluminum Vacuum Wand with Dual-Purpose Squeegee and Brush Head

Long Range Vacuum Hose

Vacuum Tank with Dump Hose

Fresh Water Tank

■ The KaiVac® 1750: Fits A Wide Range of Facilities From Large to Small

This highly maneuverable mid-size system is our most popular model. It combines an ample capacity, a surprisingly compact size and a compelling price to deliver exceptional value and a quick return on investment.

Dimensions: 40" x 28" x 22" (H x L x W)
Capacity: 17 Gallon/64.35 L

Long Range Spray Line

Spray Gun with High/Low Pressure Modes

3-Stage Vacuum Motor

500 PSI Pump

HEPA Filter

All Kaivac No-Touch Cleaning® systems feature the components shown here. Visit kaivac.com for more details and complete current specifications.

(Dimensions and capacity are approximate)

Regardless of size, any facility can find the perfect Kaivac No-Touch Cleaning® system.

KaiVac® 1250

KaiVac® 1750

KaiVac® 2750

■ KaiVac® 1250: Designed For Smaller Facilities and Budgets

This smaller system with its 12 gallon fresh water capacity, delivers the same cleaning power that KaiVacs are known for. Perfect for: elementary schools, hospitals and clinics, nursing homes, restaurants, groceries, office buildings and more.

Dimensions: 38" x 22" x 20" (H x L x W)
Capacity: 12 Gallon/45.42 L

■ KaiVac® 2750: Ideal For Super-Sized Cleaning Needs

With its vast 27 gallon capacity, the KaiVac® 2750 is ideal for large facilities, such as high schools, universities, airports, stadiums, factories, convention centers, warehouses, large hospitals, and more.

Dimensions: 48" x 33" x 23" (H x L x W)
Capacity: 27 Gallon/102.2 L

Chemicals: Simple, Fast and Effective

- Full range of chemicals designed for specific soils, settings and surfaces
- Low foaming and free rinsing for fast, spot-free drying
- Accurate metering with color-coded tips and charts
- Deeply colored to ensure visibility in the chemical line and at the gun
- Built-in filter prevents contamination of chemical injector, pump and spray gun
- Built-in check valve prevents spillage and leakage

KAIO™ combines orange oil with hydrogen peroxide to make an environmentally friendly, multipurpose, pH neutral cleaner.

This product meets Green Seal™ Standard GS-37 based on effective performance, concentrated volume, minimized/recycled packaging and protective limits on: VOCs and human & environmental toxicity.

KAIBLOOEY™ is a low-foaming restroom cleaner that contains a blend of fast-acting mild acids to de-scale mineral deposits and remove soap scum.

KAIPOW™ is a general purpose degreaser that rapidly penetrates oils, greases, fats and soils.

KAIBOSH™ is a concentrated no-rinse Hospital Use disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step. KaiBosh is effective against a broad spectrum of organisms, including MRSA, Norwalk/Norovirus, Hepatitis B and C, Avian/Bird Flu, AIDS, and many more.

KAI DRI™ helps water sheet off hard surfaces to wipe out hard water spots before they get started. It also reduces the size of the water droplets, speeding up the drying process.

FACTOID: Exclusive use of Kaivac chemicals increases the life span of our machines, so we extend your warranty!
