ENGINEERED BY TENNANT COMPANY

ULTRASHINE[®]

Ultra high-speed dust control burnisher

- Consistent results on uneven floors with the patented free-floating head
- Excellent gloss results with powerful 2,000 rpm “on the floor” pad rotation
- Customize pad pressure from 15-45 lb for ultimate finish performance

Built to be **tough.**
Made to be **easy.**

Ultra high-speed dust control burnisher: Ultrashine.

Best dust-control in the industry

Use the Ultrashine once and you'll know what everyone's talking about. The flexible dust skirt provides the best dust control in the industry. In fact, there's no need to dust mop after using it.

Really easy to use

Reduce training time with easy-to-use controls; plus, transporting and storage of the unit is a breeze with the adjustable folding handle.

Rugged and quiet

Combine durable polyethylene construction with the industry's only 10 years rotomold parts / 3 years parts and labor dust control burnisher warranty, low vibration and 66 dBA noise – and you have one great burnisher!

Engineered by Tennant Company, the Ultrashine is manufactured by the best – making it a smart, reliable choice for your no-nonsense cleaning needs.
