

# ProVac<sup>®</sup>FS 6

The triangular shape combined with ProTeam's innovative articulating FlexFit<sup>®</sup> harness have resulted in a vacuum that feels more like a part of your body. The load of the backpack is distributed to the natural center of gravity, so you have better balance no matter how you move.

The ProVac FS 6 is also adding versatility by having a switch box connected to the waist belt that features a power nozzle hook up. This will allow a power nozzle to be operated using one of the best backpack vacuums on the market. With long life and reliability, the power nozzle can take you to a new level of clean.
