# MAKE THE MOST OF YOUR TIME

Carpet Extractors

# TIME IS MONEY

**EXCEEDING YOUR EXPECTATIONS.** For beautiful, stain-free carpets that can last longer and help contribute to a healthier environment, optimal carpet cleaning is a must. That's why Sanitaire offers a wide range of commercial-grade carpet extractors to fit the needs of cleaning professionals.

## WHY WASTE TIME? SAVE IT WITH EXTRACTORS

*Big Wheel Extractor; Spot Clean Portable Extractor; Self-Contained 9 Gallon Extractor; Butler 3 Gallon Extractor (Heated Big Wheel Extractor not pictured)*

**LONGER CARPET LIFE.** Extraction cleaners clean carpets by spraying pressurized water – sometimes heated and sometimes with chemicals – onto carpets while simultaneously vacuuming up the sprayed water along with dislodged and dissolved dirt.

Regular carpet cleaning with extractors can help lengthen carpet life. Moreover, cleaning the carpet fibers is an effective way to eradicate allergens and other micro-organisms that may negatively affect health.

Sanitaire offers five models to fit any carpet cleaning need.

**QUALITY MEETS PORTABILITY.** Clean spots on carpets, stairs, upholstery, drapes and vehicles with our **1.5-Gallon Portable Spot Clean Extractor** and its numerous tools and accessories. This 22-lb. unit features large, easy-roll wheels and removable solution and recovery tanks in one compact unit.

**SMALL SPACES CAN BE BIG JOBS.** The small, lightweight self-contained **Butler 3-Gallon Extractor** is easy to maneuver in small commercial areas with tight spaces. Simple-to-use controls and lightweight design make the Butler ideal for quickly turning novice users into professional operators.

**MAXIMUM RECOVERY.** The **Self-Contained 9-Gallon Extractor** with fixed vacuum shoe is ideal when you have a lot of carpet to clean. The floating brush and fixed vacuum shoe provide maximum recovery and cleaning power. The large wheels provide balance and transport, and the see-through recovery tank lid and easy-access solution switch on the handle make this extractor easy to operate.

**REDUCE CLEANING TIME.** Clean entire rooms in no time with the **Big Wheel Extractor** and the **Big Wheel Heated Extractor**. Both feature 10-gallon tanks, 15-foot hoses, 4-foot wands, and 100 PSI of water pressure. Despite their large capacity, these units can easily be maneuvered up stairs or onto truck beds. The built-in handle and 10-inch transport wheels make these units easy to load and move.
